MEMORANDUM FOR: Executive Secretary
Utilization Advisory Board 25X1A

SUBJECT: USAFE Sanitization of [REDACTED] Information
for SHAPE Airfield Target Priorities Plans

REFERENCES: A. Air Force Memo, TCS-2781-58, TH 0270-8,
11 Feb 1958.
B. Air Force Memo, TH 171106, 5 Nov 1956.
C. UAB Memo, TCS-371-56, 7 Nov. 1956.
D. UAB Memo, TCS-2426-57, 3 Dec 1957.

1. Air Force has authorized USAFE to make corrections to the USAFE Air Facilities Lists and the Nuclear Yield Requirements Manual without reference to source and, so that SHAPE target priorities lists be timely and accurate, advise SHAPE as to the status of certain airfields; such corrections and advisements to be a composite of so many diverse sources as to minimize the chances that [REDACTED] originated ingredients be deduced. 25X1A

Air Force considers that authority for this action exists under a previous approval by the UAB for utilization of [REDACTED] materials in Air Force target materials outside of the Talent System. 25X1A

2. Authority has been issued for USAF to act as coordinating agency for the production of graphics containing [REDACTED] originated information including the scheduling of production (References B & C). The USAFE utilization would appear to fall within the logic if not the specifics of this authority and within the intent of the basic policy published 22 May 1956 (contained in Reference D) subject, however, to the policy that the exploitation be accomplished to a maximum degree at the Washington level. Other authority for release of information in Air Facilities Lists and similar documents may exist. 25X1A

3. Two inquiries suggest themselves:

a. Is it necessary to conduct the primary sanitization in the field or cannot the sanitized information better be supplied USAFE by Air Force Headquarters, Washington?

CONTROL SYSTEM ONLY

b. Would the Board like to review examples of pertinent material to see if its present policy indeed covers the case?
